GEICO® + ais

Build Your Career in Azure

Apply Today: GEICO and AIS Partner to Hire Top Technologists for New Development Center in Indianapolis

GEICO, a direct auto insurer since 1936, is the second-largest private-passenger auto insurer in the United States. AIS (Applied Information Sciences) provides software and systems engineering services.

In partnership, AIS and GEICO will hire, train, and mentor employees in Microsoft Azure in order to staff the new development center in Indianapolis. Opportunities at all levels are available.

Employees will have the opportunity to:

- Build relevant skills in an organization that embraces emerging technology
- Collaborate with like-minded technologists
- Solve challenging problems by building innovative solutions
- Develop a career in an organization that embraces an entrepreneur mindset

Build Your Career in Microsoft Azure With Cloud Academy

With Microsoft Azure, developers and IT professionals build, deploy, and manage applications through a global network of data centers using a comprehensive set of cloud services.

Employees will undergo comprehensive training through **Cloud Academy,** an Azure training program. This training will provide employees of various experience levels with the knowledge and technical skills necessary for Microsoft Azure.
